

Under the course directorship of Sven Geukens, we proudly present you the Second Endoscopic Ear Surgery Course in the Antwerp ENT Skillslab in Belgium.

For this second edition we are very proud to welcome again our honorary guest Prof. Dr. Daniele Marchioni from Italy. With his many years of experience, his numerous publications, international presentations and practical instructorships in the field of endoscopic ear surgery we are sure to offer you the most ideal training environment in our lab.

Short instructional lectures, video's and hands-on demonstrations are used. With great respect and attention for the anatomy, all the basic practical skills needed to perform a state of the art endoscopic middle ear dissection will be taught on fresh frozen cadaver.
